2+ EC Albert
12:05 pm on Apr 25, 2012 (id: 1546) DigiDoc is mainly a BlackBerry document signing software which is specialized to sign a bunch of documents such as PDF, PGP-GPG, ZIP files. DigiDoc was released as a free software for BlackBerry 7, but this version comes with the limitations of only targeting BlackBerry 7. DigiDoc for BlackBerry 10 is still being worked on, but you can get it on the Android Market, and is a direct port from the BlackBerry 10 SDK. Below is the link to the BlackBerry 10 Market Link for DigiDoc Client. On the BlackBerry Beta Zone, there is a BlackBerry OS 10.2 SDK. This is the only way to get the DigiDoc client fully working on BlackBerry 10.

What's New In?

-Sign the OGG, AVI, WAV, MP3, and other formats of video and audio, PDF and other format of document. -Create, view, send, delete, print, re-send, and search mail templates. -Add, edit and remove mail templates to your account. -Setup and manage user accounts. -Get online help. -Manage Online User Interfaces and Tools -Find an ID-card (Drivers) Certificate or get help to import -Manage the LDAP service -Sign a driver or application in new package What's New Version 2.5 - Fixes - Fixes when creating new package - Fixes when signing signature - Fixes when searching for ID-card - Fixes when importing an existing file - Fixes when importing more than one file Keywords: DigiDoc Client, Software, Windows, digital, sign, certification, OGG, WAV, AVI, MP3, PDF, document, report, mail, template, LDAP, email, X509 Certificates, creation, package, user, user account, user interface, Windows, Windows XP, Windows 7, Vista, Windows 8, Windows 10, email, email address, certificate, CSR, certificate Microsoft declared Windows 10 the best ever, yet many...
