## Pic(k)t-O-Rama Crack+ Free Download [32|64bit]

Pic(k)t-O-Rama is an effective and straightforward piece of software whose main purpose consists of helping you clean up your picture folders, enabling you to discard images you do not like in just a few swift mouse clicks. Straightforward and intuitive usage In what concerns its appearance, the program features a simple and accessible user-interface, with a left-side panel where all the images in the selected folder are listed, while a dedicated preview window enables you to look at the photos individually. On the lower edge of Pic(k)t-O-Rama's main window, the 'Keep' and 'Delete' buttons allow you to choose which files to discard from the directory. Browse through your photos and choose which to erase The application supports a wide array of popular image formats, requiring you simply to place the executable in the targeted folder and launch it. Pic(k)t-O-Rama will automatically scan the directory's contents and list them for you to browse through. You can use your mouse clicks or the keyboard arrows to navigate through the files, while the 'Keep' and 'Delete' buttons allow you to remove unwanted images from that particular folder. The preview panel helps you determine if the picture is worth keeping or not, judging by how it looks. Discarded files are not permanently erased, but simply transferred to a directory entitled 'Trash', so you can do whatever you wish with them afterwards. As such, should you wish to undo your previous choice or even recover all the removed files, you can do so without too much trouble. A useful photo sorter for you to try out To sum it up, Pic(k)t-O-Rama is a handy and easy to work with utility that can help you tidy up your picture collection, enabling you to remove unflattering or poorly-captured images from your computer, with minimal effort entailed. Pic(k)t-O-Rama (3) (744 MB) The great 5-in-1 Psd to Tiff Photo Converter is a really useful program that enables you to effortlessly batch-convert your PSD pictures into JPG, TIFF, PNG, GIF and BMP.
