Virtuosa 11/23/2017 Fantastic software Excellent software, easy to use and covers all my audio needs. It works very well and there is no nasty advertising. Would highly recommend, and would definitely use again. Good program, needs improvements 11/22/2017 I had a trial version of this, and after trying it out, it didn't work with my on-boarding. I think that the trial version has to be activated. I would be happy if the trial isn't activated for in-store purchase. Excellent app, way too expensive 11/21/2017 I loved the trial version for two days. Then, it stopped working again.
