Testimonials THE FASTEST AND MOST RELIABLE SERVER SUPPORT By Vinnie The support and updates are excellent. I have no idea how they do it, but the service and the programs are fast and reliable. They're quick to address issues and implement new functionality. I can say that I've never had a problem like with this program and server and they work great. I would recommend this service to anyone. Works like a charm By Joe I have been a satisfied Spyrix subscriber for a long time now, and I have to say that their support and updates are excellent. The service and the programs are fast and reliable. They are quick to address issues and implement new functionality. I can say that I have never had a problem like with this program and server and they work great. I would recommend this service to anyone. No Hassle, Easy to Use By Vic I was a little skeptical about how it would work, but after a few installs and a couple of hours of setting it up, I can say that it works like a charm. I know that my kids are still quite young, so I was a little worried about losing my internet access, but it has never happened. I can monitor what they are doing online, where they go and what they are doing, and they can't even tell that it's there. The only downside is that I have to set it up every time they use the internet, but it's quick and easy. Awesome By Joan We are very happy with Spyrix products, they are easy to use and have tons of options. We use Spyrix for our own devices as well as our kids. It's easy to set up and our kids are happy to have it, because they love their games and can play their games on a safe server. I can't recommend it enough. For Home Use By Kevin This is for a home user and with the parental controls, you can limit what your kids can do. This is a great little program and the customer support is fast and friendly. I would recommend it to everyone. Cool program By Andy It's a cool program that's easy to use. It's easy to block out certain sites and monitor what your kids are doing. It's an easy program to use. I would recommend it to anyone. Great program By John This

What's New In Spyrix Free Parental Control?

Spyrix Free Parental Control - is a Windows and MAC software that monitors all user actions. It creates screenshots, records all of the keystrokes and blocks websites containing inappropriate content. Spyrix Free Parental Control will allow you to manage all user accounts and track their web activities. It allows you to configure the maximum size for the log and the taken screenshots and schedule periodical log deletion. In case you want to configure the maximum size for the log and the taken screenshots and schedule periodical log deletion, you can easily access the Settings tab. Spyrix Free Parental Control provides you with an easy to configure surveillance utility that retrieves all the necessary information on your personal computer in order to control other users' Internet usage and monitor their online activity. The Spyrix Parental Control suite comes with a built-in, undetectable keylogger that allows you to spy on the activities of all users. All keystrokes are written to a log and can be displayed from the Parental Control window. Spyrix Parental Control can monitor chat communications, social networking sites, instant messengers and keywords typed by the user on the web. You can easily delete the log, block websites, take screen shots and even block the web browser itself. With the Parental Control suite, you can set customizable limits on the usage of the computer, and block websites and access to inappropriate content. Spyrix Parental Control, as a Windows and MAC software, allows you to install the keylogger and log uploader on a USB stick, so you can enjoy the monitoring experience wherever you are! Many people don't know that there is a spying software called SpyXI Monitor that really can do all of this but for a couple hundred dollars. SpyXI Monitor is a much more costly program than Spyrix Parental Control and doesn't offer the flexibility of being able to log keystrokes and take screenshots on demand as Spyrix Parental Control does. So, if you are on a limited budget this program Spyrix Parental Control is a good alternative. You just have to be aware that you will need to create your own account to view the log files on the site and that Spyrix is not responsible for any data that is stored and may be breached by a hacker. Spyrix Parental Control is an excellent program for parents who want to track the activities of their children on their home computers and at school. Key features: * Parental Control: Allows you to manage and monitor all the PC activities of all your users. * Unlimited monitoring and recording: The amount of data stored and/or exported is unlimited. * Password protection: No one can view the captured keystrokes, screen shots and clipboard content. * Monitoring: All the user activities are written to a log, monitored from the Parental Control window. * The log of keystrokes can be viewed from the Parental Control window. *
