RTDChannelEditor With License Code

==== - Clone box (Genlock mode) - Edit DVB-T channels list (no headfim channels are supported) - Supports channel numbering from 0 to 99 - Supports mode 1 and mode 2 (Hauppauge HVR-950Q) - ProdID, carrierID, freq, name and audio channel supported - support filter - Emtec xxx boxes: - S800: No channel locks: ITU, Radio and channel number locked - HMR-351H: No channel locks: ITU - HMR-351N: Channel locks are not unlocked - Markus 750: No channel locks: ITU - Medley 2+: No channel locks: ITU - Medley 3: No channel locks: ITU - O2Media: No channel locks: ITU - Special thanks to: ===== - Saanwarp: Development of the original RTDChannelEditor application. - All Those Guys: Testing and bugfixing. - All RTD 12xx set-top boxes developers. - Emtec xxx Developers: - Emtec HMR-351H, HMR-351N, Markus 750, Medley 2+, Medley 3, O2Media (if you don't use a PC with VLC, then I have some logs on my box, but you need to contact your local support if you need more help) - O2Media: Was a developer for O2Media set-top box, can provide you with.cab files of his box. - Microset: Development of the RTDClockBox application. - Saanwarp: Development of the RTDClockBox application. - Ronald: Development of the RTDClockBox application. - Andreas: Development of the RTDClockBox application. - Ludovic: Development of the RTDClockBox application. - Dirk: Development of the RTDClockBox application. - Gloriano: Development of the RTDClockBox application. - Fwdtuning: Development of the RTDClockBox application. - Frank: Development of the RTDClockBox application. - SouCal: Development of the RTDClockBox application. - Kirylo: Development of the RTDClockBox application. - PPP: Development of the RTDClockBox application. - S1: Development of the RTD

What's New In RTDChannelEditor?

This application is compatible with the Emtec and O2media set-top box models : - Emtec S800 - Emtec HMR-351H - Emtec HMR-351N - O2Media HMR-351N - Markus 750 - Medley 2+ - Medley 3 If you don't see your box model in the list of set-top box models, the software was not tested on this specific box model. The software comes with a channels file that contains the list of channels that you can download from your TV provider. Notes: You can choose to use the satellite radio, radio, and mobile radio channels. On the Emtec S800 model, it is possible to choose a "native" channel list, or to use this third-party channel list, if the native channels list has been edited. You can choose to add as many channels as you want. The script reads the channels list file (dvd_channels.txt) on the hard disk and searches for a channel which matches the chosen name and adds it. The optionnal settings may be changed in the configuration file (dvdplayer.cfg). The automatic option of the software allows you to configure automatic channel changing for the available channels when you start the dvdplayer. To set it up, you can choose to choose the amount of seconds between the new channels from the list. Known problems: - When the set-top box is restarted after editing the channels list, channels with the same name are added twice. Forgive me for the new version release. Changelog: 2015-03-01: Release version 1.7 (1.8 released) - Fixed a bug which didn't allow saving the edited channels list 2015-03-01: Release version 1.6 (1.7 released) - Added the possibility to copy all channels from the edited channels list and paste it into the "add channels" button - Added the possibility to delete all channels from the edited channels list 2015-02-25: Release version 1.5 (1.6 released) - Added a button to remove channels from the edited channels list - Updated the help file 2015-02-25: Release version 1.4 (1.5 released) - Fixed a bug which didn't allow copying all channels from the edited channels list and paste them into the "add channels" button - Fixed a bug which didn't allow setting automatic channel changing time - Updated the help file - Added a message when more than 50 channels were selected - Added a message when an invalid channel was selected - Updated the help file 2015-02-25: Release version 1.3 (1.4 released) - Fixed a bug which didn't allow selecting more than 5 channels for automatic channel changing - Added a message when
