Story Mode - 9 levels with various themes and challenges. Arcade Mode - 60 challenges with the option of a mini and a hard version. The mini version has 5 levels and the hard version has 40. The player must get all his balloons and avoid holes and "Thwarters" in each level. A maximum of 100 levels is shown, the player may earn and accumulate one star for a perfect level. Also, there is a live version of the game, in which the player can compete with his score vs. all others. Live - Endless Arcade Gameplay: The rules are the same as in the "Story Mode", but the player starts with 7 balloons and each level starts with a ceiling 40 x 40 squares. Playable Arcade Games: Graphics Gameplay: As I have said the Story mode, the arcade mode is the same, we have 8 levels with different themes and 3 different "Thwarters" in each level, but the "Thwarters" have different colors. We can also play a version of the game, called "Infinite" in which we have only 6 levels but there are also "Thwarters" but they are more or less common. Different "Thwarters": Thwarters can also be dirt blocks or just some pipes that can be hit by balloons, some of them are also camouflaged and we have to find them by moving up or down and pressing some buttons, but you can also press the "Angle" key and move along with the character to find them. In the "Infinite" version, the player has 7 balloons and the "Thwarters" are the same, but they do not move and they are more or less hidden. Game Difficulty: The game in the Story mode is a "Classic" game, but in the live version and the arcade games we have "Easy", "Medium" and "Hard" The player must try to find all the balloons and avoid all the "Thwarters". Game "Hero Quest" (Playable Arcade Gameplay): Graphics Gameplay: It is a 2d game in which the player has the option of "Classic" or the "Adventure" Version. Playable Arcade Games: Graphics Gameplay: Levels = 1-3 of 3D adventure with different "Thwarters", the game offers us a difficulty level "EASY", "MEDIUM", or "HARD" which can be chosen. The player must find

## What's new:

is a five-issue comic book limited series, written by writer Matt Wagner and illustrated by Tyler Kirkham. It was published monthly from October 2013 to March 2014 in Britain by Zenith Comics. Overview *Machina Blade* follows the story of Richard "Dick" Masters, a mundane scientist and inventor working for the government on a secret project to investigate Earth's connection with a mysterious alternative world, called "The Ether", which the government is determined to use for military purposes, against the wishes of its inhabitants. Alone in his apartment, Dick masters a machine known as "The Elemental Blade" and releases a being named "The Earth Elemental", who has been trapped for millennia within the pocket dimension of "The Ether". The Earth Elemental begins to assert its free will, killing all the soldiers sent to seize it. Thanks to his machine, Dick can commandeer The Elemental Blade, and use it to go on the run with The Earth Elemental. Together, they travel through The Ether, and as they learn the true nature of the war between America and The Shadow Enchiridion, they encounter other beings and emotions found in The Ether. In 2009, Wagner took three years leave from his normal creative duties on *X-Men: The Last Stand*, but often wrote and drew "studio notes" for *Machina Blade* on a personal blog, always attached to the main site. The early draft was intended as an experiment, and most of the stories were one-and-done, along with the notable exception of Issue #2 - *The Gathering*. Not long after, Wagner and Kirkham both left *X-Men: The Last Stand*, suggesting they had had enough of writing the series. Wagner then approached Zenith Comics to offer these stories as a full limited series. He enjoys the design of "the various worlds, the sense of strangeness, the pathos", but he finds the "quest feel" to be an unnecessary distraction from the main story: "If you know where the story is going you don't need to be in this preoccupied world. You don't need to throw exposition into every panel. It's a necessary but distracting tool." The first
