Menu SEOUL, South Korea — The United States is considering sending additional F-35s to Japan, South Korea and Taiwan, according to a report from Stars and Stripes, the newspaper of the U.S. Air Force. The additional F-35s are part of a plan to expand the number of aircraft for the regional security mission of the United States, the newspaper reports. On Wednesday, a Seoul-based Foreign Ministry official said the United States has not made any decision regarding the number of additional planes. F-35s are being prepared to be delivered to South Korea and Japan for their F-35As, the newspaper reports. The U.S. Air Force said in September it has delivered 17 F-35s to Japan, bringing to 50 the number of F-35s the country has in its inventory. The U.S. Air Force also confirmed last year that it plans to deliver F-35s to South Korea for its F-35As. I am using ALB load balancer for this purpose. If we connect directly to the cluster through docker client, everything is fine and image loads on all the servers. Here is how I am connecting to the docker cluster. export DOCKER\_HOST=tcp://docker-linux:2376 export DOCKER\_CERT\_PATH=/etc/ssl/certs/ export DOCKER\_TLS\_VERIFY=1 export DOCKER\_CERT\_FILE=/etc/ssl/certs/my\_cert.crt export DOCKER\_VERIFY\_CERTS=1 docker-machine ssh -D localhost But if I connect through load balancer, only one instance loads the image. Here is how
