Restart your computer to ensure that the program works properly. US warns Philippines to be wary of China MANILA, Philippines - The United States issued a stern warning to the Philippines yesterday to steer clear of China, as Beijing announced it will no longer allow international warships to dock in its ports. China's foreign ministry said yesterday that the Philippines had no right to object to the visits, apparently sparking concern in the US about China's rising influence on the dispute with the West-allied Filipino leader over Scarborough Shoal. US Secretary of State Hillary Clinton urged the Philippines to seek help from Beijing over the South China Sea issue, while Philippine Foreign Affairs Undersecretary Raul Hernandez said Washington could play a mediating role. However, there were no indications from either Washington or Manila that the two countries would come together to resolve their differences. "We urge the government of the Philippines to be wary of being used by China for their political and military leverage," Clinton told the Senate Foreign Relations Committee yesterday. "Their request that the US help mediate the territorial dispute fails to take into account the depth and breadth of China's long-standing disputes with its neighbours." Clinton said: "We have made clear in very clear terms that there should be no impositions on the sovereignty of the Philippines. We will not be the ones to do it. They should make their own decisions." The US navy ships have been hosting the visiting Filipino navy amid rumbling anti-China protests at home, adding

### What's New in the?

Password Protect USB Flash Drives software is designed to protect all removable media from unwanted and unauthorized access. It can protect your USB flash drives, SD cards, memory cards, Memory Sticks, Zip disks and many other disks. This software is very easy to use and allows you to add password protection to all removable devices, which have a USB or SD flash drive inside. Just enter a password (the master password and a password for each files/folders) and the software will encrypt your removable device! The software also has a function to remove the encryption so that you can access your media. The built-in Decryption utility decrypts encrypted media in several formats like: \*.txt, \*.rtf, \*.pdf, \*.epub, \*.jpeg, \*.jpg, \*.bmp, \*.png, \*.jpg, \*.gif, \*.eps, \*.cdr, \*.dcr, \*.dng, \*.m4v, \*.mp4, \*.avi, \*.mpg, \*.mov, \*.m4a, \*.mp3, \*.mp4, \*.wav, \*.wma, \*.wma, \*.wmv, \*.xml, \*.json. 4. XLS. 3. 2-in-1 conversion software such as: zip -> rar, 7-zip -> rar, Handy RAR files -> 7z. \* If you have a DVD or CD drive, you may use this software to protect your discs. You may also use this software to protect removable media such as a memory stick, hard drive, USB flash drive, MP3 player, iPod, iPhone or iPhone (video) memory card. \* Fully automatic software protection! Protect and unprotect all removable media at once. Easy to use! 3 steps to protect USB Flash Drive: select the USB Flash drive (your drive to protect), add password (master password and a password for each files/folders) and that's all. The software will automatically protect your USB Drive. \* 3 Steps to unprotect your protected USB Flash Drive (in case it lost!): 1. Select the USB Flash drive (your drive to protect), add password (master password and a password for each files/folders) and that's all. 2. Enter Password of the USB Flash Drive in the master password box 3. Remove the protecting password to unlock the USB flash drive \* Fast and easy to use. \* Very simple and intuitive interface. \* All functions are accessed from one window, easy

---

## System Requirements:

Requires the DirectX 9 API. Xbox LIVE Multiplayer required.
