"S.I.N. Unit" is a game about the unit conversion of Skins with different costumes. In the game you'll test your converting skills at S.I.N. Unit. There you'll meet skins that will be useful in the research of the desired Weapons or Armor. The rule is simple, as a skin converter you will use different clothing with five different main characters, with the weapon in the left of the video screen and the armor in the right. You'll be able to check the skins in different levels of difficulty (easy to hard). The game features five main characters: the Skins, Jayte, Lara, Jeremy and Sean. **chance for me to release my exclusive (voted for by myself) original skin character, Spyke! Goodness knows I've been wearing the Arsenal Officer Hat (amongst other uniforms), it's so fitting to design my own character using this character's units only. To commemorate Spyke, I'd like to also release the helmet (amongst the default, and many others), other standard back uniform, and spy camantau. I'll also throw in the art of the newly characterised shirt as a well... as a, giving you a full recolour your character and Spyke the Mechanic! Hyung Goku**
