The Power is a 2013
Telugu Film. It was
released on 3
October 2013 in
screens. Directed by
Ali.Q: X86:
Interrupts might be
disabled by

hardware, how can I detect it? I'm currently working on a project that involves the usage of interrupts. I've written some test code that checks the interrupt status in order to detect errors. Sometimes I get this error (or the interrupt should be triggered):
`_vectors.c: In`

```
function `main':  
  _vectors.c:65:  
warning: enable  
branch prediction for  
`unsigned int main()  
{ int ret; __asm__  
  __volatile__ ("int  
$0x80" : "=A" (ret) :  
  : "memory"); return  
ret; } _vectors.c: In  
function `test_interru  
pts_and_hle_bug':  
_vectors.c:107: error:  
interrupt vector 0x1E
```

is defined, but not
