This is the portable version of the utility which enables you to bypass the installation process and copy the tool on any USB flash drive or other devices. Plus, the app doesn't leave Windows registry entries. User interface and lottery wizard The tool adopts a clean feature lineup and employs a lottery wizard in order to help you configure the lottery process thoroughly and with minimal effort. You can follow the step-by-step approach that helps you select the lottery type from a drop-down list (e.g. Cash 4, Fantasy 5, The Pick, Powerball, Lotto Max, Lotto, Match Play, Grand, Mega Money, Joker, Thunderball) or manually create a new one. In addition, you are allowed to specify the saving directory. Expert Lotto Portable adopts a multi-tabbed layout for giving you the option to switch between several statistics. Not all of the program's features are highly intuitive but the layout doesn't look overcrowded and overwhelming so you only need some extra time in order to get used to working with it. You may consult the help manual in case you want to find out detailed information about the configuration process. Winning numbers The application is able to show all past results from your winning number database, edit winning numbers, remove or hide a draw, check the out-of-schedule draws, as well as calculate summary statistics for past winning numbers with the aid of the ticket analyzer wizard. You are given the freedom to select the range of past draws to be analyzed, choose the statistics to be calculated, as well as check out tables and charts for the selected statistics. Other important features enable you to add winning numbers that are missing from your database, import data from HTML, plain text or CSV file format or paste the information from the clipboard, update winning numbers from online sources, check past winnings, as well as predict winning numbers. In addition, winning numbers can be viewed as table, matrix, table of statistical properties or charts.
