Three-dimensional shapes of hypoglossal canal, the atlanto-occipital membrane and the vertebral canal were investigated and the following findings were obtained. The typical shapes of the hypoglossal canal and the vertebral canal are zigzag and circular, respectively. Cross-sections of the hypoglossal canal near the root of the tongue are distinctly wider than those at other locations. The position of the foramen magnum was easily determined from the shapes of the hypoglossal canal and the vertebral canal. The Health and Care Professions Council 'will not impose a sanction, even if we consider it in line with the advisory,' the regulator has told BuzzFeed News. The Health and Care Professions Council 'will not impose a sanction, even if we consider it in line with the advisory', it says. The NHS regulator has told the Advertising Standards Authority that it will not impose any sanction for a television advert about abortion despite the agency ruling that it misled customers. In May, the ASA banned the advertisement by the abortion provider Marie Stopes, claiming it had "failed to make clear the procedure had to be performed in certain circumstances". Marie Stopes, which offers abortions in England and Wales, says that the advert was both
