our townhouse in funchal has a number of windows, sliders and doors which are all keyed alike with just a code. this makes access to our unit very easy and is our greatest comfort for guests. the code is "vs2d05". we also have an additional code that is given to guests when they first arrive here so that they do not forget their code and "check out" their luggage. thank you for this post! all units at the villa madeira are designed as a 2 bedroom + den and a majority of the owners have put additional bedding in the den area. it is not a true 3rd bedroom but there is that extra room to accommodate! :-)) should you have any troubles with the locks or sliders, please do not hesitate to contact us at our office. we have maintenance staff in place and if there is anything we can help with, we are more than happy to have them come out and take a look! beach chairs and umbrellas are a constantly changing inventory and many times go missing, which is really unfortunate. if the condo does not have those, please again just call us at our office as we do keep a supply here that we are happy to help with for the duration of your stay, based on inventory. the summer months is fl definitely do bring heat, sounds like you got a pretty good taste for it especially visiting the parks! we are glad to hear you enjoyed your vacation time, this really is a lovely area with lots to do! thank you for staying with us and we hope to have you back for another visit soon! good morning, it was very helpful to hear the update regarding your stay last year. our policy regarding abuse has not changed. therefore, should any issue arise, please contact the office immediately. we do appreciate your feedback and we will pass this along to the homeowner.
