
Delphi 6 Free Download Full Version |VERIFIED|

Download

July 02, 2016 - Then install Delphi 6 from the CD, but this time select "restore". To use the help system, you need to install WinHlp32.exe Microsoft. NET Framework 2.0 from the CD, then right-click Delphi 6 and create a shortcut to Delphi 6 .exe on the desktop. This will allow you to use the help system in Delphi 6 .exe. I strongly recommend that you install this component because it may come in handy. After you have installed Delphi, you should have a new desktop icon. Right-click this icon and select Properties. Then click the Location tab.
