we have created a dedicated facebook page so you can easily watch our developments as well as help give us feedback on the game. we are constantly improving and would appreciate your thoughts on how we can improve the game. to stay up-to-date with everything that is happening in the game, visit our facebook page <http://www.facebook.com/flyff> . the current development version is work in progress, and it includes a new area, eldora/darken city, as well as a new 'blessing' system. it also supports currency trading with a new merchant npc and dungeons for item farming. perhaps a simple, yet powerful stat, is the soul gem stat. for every unit, soul gems offer special boosts to health, stamina, and intelligence. aoi was able to create some pretty awesome soul gem-related items in the mabulous shop which he's been kind enough to make available for flyff. 1. rotate your in-game camera to face the owl. 2. make sure you are wearing boots with glass bottoms. 3. make sure the owls are in an incubator. you can find an incubator near an ore farming block. 4. in-game, click on one of your owls. you will see a message of hatching an owl. 5. if the owl hatches, the message will end and an owl will be generated. each will have a different name, but if you press tab you will see that they all have the same stats. owl are nocturnal by default, and will naturally come at night. 6. if you do not have an appropriate potion of luck you will need to search for one. you can find one in either a sanctuary or any town. you will need 250 luck and a cauldron to create a potion. 7. 5ec8ef588b
