What's New in the?

SpreadsheetMerge is a CSV merger that is very easy to use. All you need to do is drop your CSV files into the application and you will have a list of merged CSV files. You can select the desired output directory and the application will do the rest. There are no options to configure, you just select your CSV files and click Merge! DivX Converter is a program that lets you convert almost any video format, such as WMV, MPEG, MOV, AVI, FLV and many others. It can convert video files to DivX, MPEG-4, and many other popular formats. You can even download and install DivX codecs to get excellent video quality on any DivX-compatible player. The suggested price of $39.95 may seem steep to some, but it includes an extensive set of features including:

Multiple video and audio conversions Conversion of a single file or a batch of files Conversion of video to DivX or other files Conversion of DVD, VCD, MPG, MTS, OGM, M2TS, MKV and many other formats Additional codecs for various Windows, DVD and portable players Transcoding of images Playback of audio and video with VLC player DivX Converter is a powerful and reliable video converter with a friendly user interface.
