In April 2011, during a visit to the Institute for Nuclear and Particle Physics in Trento (Istituto Nazionale di Fisica Nucleare in Trento, IT), we had the opportunity to visit the astrophysics laboratory of the CNRS-DIRAC (European Organisation for Nuclear Research) to watch a revolutionary experiment in progress. This experiment is aimed at finding black holes, invisible objects around which, according to Einstein's theory of general relativity, no light can escape because of the effects of gravity. On October 31, 2011, this experiment became reality: it was the first observation of a black hole. Class 11 Physics textbook by SL Arora with Solutions.
